## Place Value

## Family Note

In this lesson your child reviewed place value and how it is used to determine the value of digits in numbers. For example, the 5 in 503 is worth 5 hundreds, or 500 , because it is in the hundreds place. The 5 in 258 is worth 5 tens, or 50 , because it is in the tens place.

Your child also used place value to compare numbers. For example, to compare 571 and 528, your child might think, "Both numbers have 5 hundreds. But 571 has 7 tens and 528 has only 2 tens. So 571 is the larger number."

Please return this Home Link to school tomorrow.

In Problems 1-2, write the numbers shown by the base-10 blocks. | MRB |
| :---: |
| $n 2-3$ |

(2)

(3) Read the numbers in Problems 1-2 aloud to someone at home.
(4) Write each number in expanded form. Then write $<$ or $>$ in the box to compare the two numbers.
$491=$ $\qquad$

$471=$ $\qquad$
Write $<$, $>$, or $=$.
(5) $295 \square 298$
(6) $387 \square$ 378

## Practice

Add or subtract.
(7) $93+65=$ $\qquad$ (8) $80-54=$
$\qquad$
(9) $76+26=$ $\qquad$
